			Hi, Billie. Thank you for your question. There are many reasons. One				
			major one is schedule and how that schedule impacts our students. When we have to play Thursday and Saturday games, it is disruptive to				
			academics, preparation, injury recovery, and attendance. We have three				
			Thursday games on our schedule as a result, two of which are home	I don't recall Woodrow			
17	With an abundance of stadiums available, why another?	Billie Collins	games that would be held on Fridays if we had adequate facilities.	playing on Saturdays.			
	Isn't the "travel" that you mention only 7 miles from			. ,

I	Noise. Band, announcer noise, and sharing will be quite		The Mt Auburn neighbors and Freinds of Willis Winters Park in addition

	Parking. Columbia and Juliet Fowler Street will not be						
	able to handle emergency vehicles if parking is allowed						
	on both sides of the street. Who will monitor the						
	parking situation in neighboring public streets? Where						
	will an extra 1500 cars park? The park is limited in						
	acreage. What will be illuminated for general use? Playground, picnic areas, walkways. It would be nice to

	So if you are saying the need is only for 10 games in a year, then why do we need this?	Chand				
	year, then why do we need this? Who will pay for the shuttle buses?	Sheryl Anonymous Attendee	I was wondering the same thing. DISD can't afford to provide buses for many student travel to events and they won't even provide trucks for band equipment.	That is a good question and would be one of the subjects of further study. There are likely many viable potential funding avenues.	 	
23	You stated concern for the students quality of life for short part of the day, what about the entire day of citizens/homeowners/renters quality of life that would be impacted by adding this stadium?	Aaron	Thank you for your question. The games would be 5-10 Friday nights per year, beginning at 7:00 or 7:30, and would average 2 to 2.5 hours. Sanitation and safety would be key aspects that would be addressed here, as at any game field. It would even be worth looking at whether this might be an employment opportunity for the students.			
24	To the '10 games" line that gets thrown around, we are talking about Woodonw varsity football, correct? Would JV not play there? Would Long not also use the facilities? Would other schools not be able to use the stadium on the days that Woodrow is not?	Lauren Ortega				
25	In Texas the average high school football seating capaity is 3,462. Since this is a new stadium in an existing neighborhood can we have a lower capacity.	Jim Anderson				
26	So, Fowler will lose their park views and will instead see the under-belly of bleachers, and will be the closest to the noise and lighting and high parking density?	Anonymous Attendee	Exactly!			
	Yes!	Denise K				
	You stated that curbside parking would not be allowed on the surrounding streets; however the middle and high school both exceed curbside parking on traditional pickup, drop off and parent teacher conference nights. With that being said if curbside parking is already an issue and now your wanting to add stadium which will					
28	implode the curbside parking.	Aaron				
29	How many days per year will this be used and will it be for school sports only. Will it be used (rented 0 to other groips and id so how often. Will other events such as concerts be allowed	Jim Anderson				
	To Council and Park Board members: What is the community input process to this proposal? Will we have real meetings in real life or is this to be decided virtually? If so, how will you capture all who are interested and					
30	concerned?	Jeanne Chvosta				
31	'@tom Methvin there is a lot of negative speak about Ross. He didn't attack you, why would you attack him?	Patrick Donlin				
	Reverchon stadium that proposed the same size stadium required FOUR PARKING GARAGES - and they couldn't make it work. This football stadium idea has NONE. The parking proposal of this football stadium is ridiculous and woefully naive. How can the city, DISD, and the Park Board even consider this in our little,

	GET TO COUNCIL ??- how has this irresponsible idea				
	gotten THIS FAR?? Who is pushing this?? Developers				
	who are buying up home poperties and pushing out				
	working-class families?? Who are those investors?				
	Where do the profits go? Who would run, operate, and				
	maintain this facility for the next 60 years+?? DISD and our TAX dolloars will eventually pay for this - don't listen

	Can anyone site an example of a 4,000 seat stadium				
	being RETROFITTED into an established, dense, Historic				
	neighborhood? In researching the existing stadiums in				
	the Dallas area, they were all built between 50 to 70				
	years ago! Long BEFORE the dense neighborhoods grew				
	around them. Neighboring homeowners do NOT want				
124	this stadium.	Terri Raith			
	Is this allowing for more gentrification?				
	Why cover up a perfectly fine park in a residential neighborhood?

125	which chep the young people of the community?				
	Who is making a determination regarding the existance				
	and extent of the wetland area at the proposed Santa				
	Fe Trail park? What authority or qualification do they				
	have to determine this? Critical wetland zones are not

	Aren't students better able to earn athletic scholarships				
	with better facilities next to their schools (instead of

	The impact to students and their families will last only				
	the years the kids are in school. The impact to the				
	neighborhood lasts for many decades. This is about				
	accomodating wealthy families in Lakewood. And the				
	comment about losing kids to private schools, oh well.				
120	that's their choice. It is NOT a choice given to lower income residents near this park.	Anonymous Attendee

	According to the proposal the park will be getting more				
	green space. Why does Tom and other speakers think				
	we are loosing green space? It seems like the proposal	Advander Allen			
132	will make the park better.	Mandy Allen			
	Why is Willis Winters park the only location considered?				
	Samuel Grand park would be a much better location and				
	is only a mile from the school. It has much better access				
133	and not in middle of historic neighborhood and Fowler	Anonymous Attendee

	'@Tom The improved safety features implemented				
	along with improvement of the field will REDUCE crime.				
	What documentation do you have regarding crime				
	increasing around the immediate zone of a school				
	related to a stadium vs. crime related to a neighboring				
	school? To me, it seems like improved facilities would				
	reduce crime and bring positive people in the

133	The question regarding the maintenance of the facility				
	needs to be respectfully addressed by a City of Dallas or

	For the amount of time that has been put into this						
	proposal why are there no landscape designers, civil						
	engineers, stadium designers, urban planners, wetland						
	experts, acoutical experts, traffic/zoning/parking						
	experts? What qualifications do Ross and this proposal's						
	co-developers have to put this proposal together? I
